

How we can have more fun with our Pagoda

Well the answer is very simple “Let’s get together with other Pagoda owners within our area where we live” You might say; “Dieter that is easier said then done” well may I quote the the famous saying;-

“where there is a will there is a way”

Some groups in the US and Canada have done it several times and it always turns out to be fun (I refer you to our latest “Pagoda Notes” if you read them then you know what I mean.

Our European Members do it quite often get together in small groups may it be just for coffee or some other issue. You can arrange a small get together in your immediate area for coffee, or technical issues like going over one area of your car that you have worked on like; Oil Changes, The Linkage Tour, or location of all Grease Fittings, Maintenance checks you normally do. Charing this sort of information during get togethers is always valuable and fun.

Jonny B talked about this subject during the closing of our 2019 PagodaFest, someone asked about a contact list of members etc. I mentioned that I will provide some steps for Members to get together in the area where they live. You see our Founding Members of this site have put together a great site, one area is the “View the members-list” This list is totally sortable. In this PDF file I will include Screen Shots and some comments to help individuals locate and contact other members in there area for possible get togethers. I will try to keep it as simple as possible.

When you first sign in to the site you are at the “Home” page. The second last item as you can see above is “Members” If you click on “Members” the screen below will open for you.

The “Pull Down Menu” opens for you and if you click on “View the memberlist” The screen below will open for you

This is the sortable data base I mentioned before. When you click on “Location” the entire data base will sort by “Location” You have the choice of sorting each “Column” The screen above shows “Page 1 starting with A Locations” USA Locations start at Page 24 / 25 all the way down to the last Page 52

When you click on “Location” you will actually see the page above. Note that the first entries are shown as “USA” this is because the member has not entered the State where he lives. Note on the upper left are the page numbers from 1 .... to 52 (again pages may be more on your device as mentioned before). Anyway on my computer there are 52 pages. Now if you click on Page 47 the screen below will open.

I will use Texas as an Example. If you clicked on Page 47 (or near to it) you will see members from Texas. I made screen copies of Austin above and Dallas below.

<input type="checkbox"/>	twinoakchef		USA, TX, Dallas	1	Full Member	2009-03-12	12

<input type="checkbox"/>	kwmurphy		USA, TX, Houston	0	Associate Member	2009-02-01	2	

From the above (2) two screens above you can see that there are; 4 Full Members in Austin, Texas and 2 Junior Level Members (having joined our group just this year). For Dallas, Texas there are 3 Full Members, 3 Associate Members and 3 Junior Level Members (having joined this year). Now if you live in Austin or Dallas, you can further check the area around the afore mentioned cities to add additional members to your list of members you may like to contact for a get together.

The last columns in all the screens show the number of posts some of the members have made. If you click on the Members ID (Username) you can see the last time he/she visited our site. There are quite a few “Inactive Members” as you can see, our Directors remove them from time to time to keep the data base clean.

Now how to make contact with other members for a get to gather. Well if i would compile a e-mail list I would proceed as follows;

- 1) Click on the small square box (to the very left of the data base, this will open the screen below. You can now copy and paste the members e-mail address. For the time being I would paste the e-mail address into a word processing program or some text program.
- 2) I would repeat step 1 for all members that live within say 50 Mile radius from where I live.
- 3) Then I would once again open the e-mail of the first Member and add all the others (one by one into the “Add BBC” Row. Next I would add “Join us for Coffee at ... Location” and a short message like;-

Hello,

We are planning a get together for coffee on ... Date ... Time ... Location. We would look forward to meet you there. Please let us know if you can join us.

Pagoda Greetings. (your name and Location)?
