

Finally...  
A faithful  
reproduction  
Leather Key  
Holder for the  
mid-century  
Mercedes-Benz  
Ponton Series,  
190 SL, 300 SL  
and 230 SL

**After searching high and low for an original Mercedes-Benz leather Key Holder, we finally decided to produce our own.** Finding an original Key Holder, especially in the color you desire is nearly impossible. These key holders, like the originals, are now available in four colors: Red, Black, Blue and Tan. Special color orders may also be requested or, **send us a 4" x 4" piece of YOUR leather for a truly personalized fob.** (There is an additional fee of \$20.00 US. for this service.)

These key holders were specially designed to hold three metal car keys for 50's & 60's Ponton models—stored in such a way to protect the dashboard from getting scratched. Historical research finds that the fob color matched either the interior or exterior color of the car, with black being the default color if a match was not used. To assure the “rarity factor” for this accessory continues, it is our intention to produce a limited number of these key holders.

Original Key Holders, if you can find one, can cost upwards of \$300.00 or more!!! Mid-century Mercedes enthusiasts and collectors should take advantage of this limited edition, high quality reproduction.

Since extensive measures were taken to produce this Key Holder so close to the original, we found it necessary to discreetly stamp “NOT AFFILIATED WITH MERCEDES-BENZ” on the inside pocket to protect individuals who own one of the original rare key fobs. Each Key Holder is hand made in America. *(keys not included)*

**Our introductory price is: \$59.00 US/each**

**Plus: \$5.00 shipping in the US. \$10.00 shipping outside the US.**

**To order** your Collector Key Holder, simply PAYPAL: **Anthonyjoseph57@comcast.net** using the “send money” function with a “direct funds” transfer (not credit card).

Be sure to include your car model, color choice and correct physical mailing address in the “message” section.

**Questions or comments** Email: **Anthonyjoseph57@comcast.net**
